### **Spalding DeDecker Acquires Advanced Mapping Technologies**

**Rochester Hills, MI (September 8, 2020)** - Spalding DeDecker (SD), a leading civil engineering, planning, and surveying firm, recently acquired Advanced Mapping Technologies, LLC, a photogrammetric firm specializing in aerial mapping and photography.

The purchase of the company fits into Spalding DeDecker's strategy to offer additional services in-house that can greatly benefit our clients. Spalding DeDecker will provide these services to firms across Michigan and the country. Advanced Mapping Technologies (AMT) has been providing clients with quality photogrammetric work since 1989. SD has been utilizing AMT's mapping services since 1989.

"Our acquisition of AMT adds aerial photogrammetry to the toolbox of our already strong survey department," said Steve Benedettini, president of Spalding DeDecker. "AMT is a leader in this sector, and we are excited to be able to provide this service directly to our clients."

### **About Spalding DeDecker**

Established in 1954, Spalding DeDecker is an employee-owned consulting engineering and surveying firm specializing in infrastructure, land development, and surveying. Headquartered in Rochester Hills, Michigan, Spalding DeDecker offers a diverse set of skills to clients who seek solutions to construct and maintain their infrastructure. The firm offers planning, municipal engineering, construction engineering, transportation engineering, land development, pavement management, roof and building envelope assessment, urban planning, and land surveying services.
