Spalding DeDecker Promotes Heather Gendron, PE to Construction Engineering Project Manager

Rochester Hills, MI (October 07, 2020) – Spalding DeDecker (SD), a leading civil engineering, planning, and surveying firm, promotes Heather Gendron, PE to construction engineering project manager.

Heather started at the firm as a construction engineering intern in 2013, and quickly worked her way through the construction engineering department. She specializes in plot plan reviews and residential construction inspections and has become an integral part of our team’s successful management of projects for private developments, water main, sanitary sewer, storm sewer, roads, and water rehabilitation projects. Heather will manage of private development projects in the City of Novi, Plymouth Township, and the City of Ann Arbor.

Ms. Gendron earned her Bachelor of Science Degree in Civil Engineering, along with an Entrepreneurial Certificate from Lawrence Technological University. She is a licensed Professional Engineer in Michigan and trains our new construction staff utilizing her vast construction engineering expertise.

“It’s always rewarding when you see someone who started at Spalding DeDecker as an intern become a project manager. Heather is a great example of what can be accomplished with hard work, a great attitude, and a hunger to grow and learn new things.” said Steve Benedittini, president of Spalding DeDecker. “I am delighted that Heather has earned this well-deserved promotion!”

About Spalding DeDecker

Established in 1954 and celebrating its 66th year in business, Spalding DeDecker is an employee-owned consulting engineering and surveying firm specializing in infrastructure, land development, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to construct and maintain their infrastructure. The firm offers municipal engineering, construction engineering, transportation engineering, land development, pavement management, roof and building envelope assessment, land surveying services, and urban planning.
