Spalding DeDecker Receives Multiple Workplace Awards

Rochester Hills, MI (November 22, 2023) – Spalding DeDecker (SD), a leading civil engineering, planning, and surveying firm, has been honored with prestigious accolades, including the Free Press' Top Workplaces, Crain's Best Places to Work, and the Best and Brightest Award.

These esteemed awards are a testament of our commitment to fostering a positive and engaging work environment, promoting professional growth, and creating a culture of innovation and collaboration within the organization.

Top Workplaces is an Award based on employee feedback results captured by the Energage Workplace Survey. The research-backed engagement survey is driven by the industry's most robust benchmarks built on data captured from tens of millions of employees at thousands of organizations across the past 17 years. **The Best and Brightest** Award program recognizes and celebrates "organizations that epitomize Better Business. Richer Lives. Stronger Communities." **Crain's Best Places to Work** in Southeast Michigan is a research-driven program from Best Companies Group that examines a company's practices, programs, and benefits and surveys its employees for their perspective.

"We are always looking for ways to enhance the employee experience and are big believers in creating opportunities for employees to grow both professionally and personally," said Steve Benedettini, president of Spalding DeDecker. It is gratifying to be recognized with these awards."

About Spalding DeDecker

Established in 1954 and celebrating its 69th year in business, Spalding DeDecker is an employee-owned consulting engineering, planning, and surveying firm specializing in infrastructure, land development, urban planning, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to construct and maintain their infrastructure. The firm offers municipal engineering, construction engineering, transportation engineering, land development, pavement management, land surveying services, and urban planning.
