Spalding DeDecker Welcomes Senior Project Manager Rebecca Page, PE to the Team.

Rochester Hills, MI (June 14, 2024) - Spalding DeDecker (SD), a leading civil engineering, planning, and surveying firm, has hired Rebecca Page, PE as a Senior Project Manager in the Grand Rapids office.

Ms. Page brings more than 24 years of expertise, and she is recognized for her credible and diverse land development experience throughout West Michigan. Her expertise in local land development includes municipal and agencies permitting processes, stormwater management design, site grading and earthworks balancing, construction engineering, sanitary and septic system design, well and watermain design, project specifications, value engineering, and quality control reviews. Becky holds a Bachelor of Science Degree in Environmental Engineering from Michigan Technological University.

Her background includes extensive experience in school developments and improvements, industrial and commercial development, and other miscellaneous projects and planning related services. Becky is experienced in taking projects from inception to completion and has positive working relationships with clients, architects, municipalities, agencies, and general contractors.

“Becky brings a wealth of experience and relationships to our Grand Rapids office, which should further enhance our services to clients. We are delighted to have her join our growing team.” said Steve Benedettini, president of Spalding DeDecker.

About Spalding DeDecker

Established in 1954 and celebrating its 70th year in business, Spalding DeDecker is an employee-owned consulting engineering, planning, and surveying firm specializing in infrastructure, land development, urban planning, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to plan, construct, and maintain their infrastructure. The firm provides municipal engineering, construction engineering, transportation engineering, land development engineering, pavement management, land surveying services, urban planning, and landscape architecture.
