Spalding DeDecker Welcomes Project Manager Dennis Farmer, PE to the Team.

Rochester Hills, MI (August 2, 2024) - Spalding DeDecker (SD), a leading civil engineering, planning, and surveying firm, has hired Dennis Farmer, PE as a Senior Project Manager in the Construction Engineering Department.

Mr. Farmer brings over 28 years of expertise in transportation and infrastructure facilities, managing programs ranging from \$44 million to \$1.2 billion. He also has extensive experience with small capital improvement projects and tenant-requested/funded projects in existing facilities, requiring significant stakeholder coordination, with budgets between \$350K and \$3 million. Dennis holds a Bachelor of Science in Civil Engineering from the United States Military Academy and a Master of Science in Civil Engineering from the University of Michigan.

Dennis has led teams on infrastructure and transportation design and construction projects of varying sizes in both new “green field” and existing facilities, building relationships with and driving communication between owners, contractors, designers, tenants, regulating agencies and other stakeholders.

“Dennis’ extensive experience in a variety of projects makes him a great addition to our team and our clients will be very well served working with Dennis. I’m delighted to have him join us!” says Steve Benedettini, president of Spalding DeDecker.

About Spalding DeDecker

Established in 1954 and celebrating its 70th year in business, Spalding DeDecker is an employee-owned consulting engineering, planning, and surveying firm specializing in infrastructure, land development, urban planning, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to plan, construct, and maintain their infrastructure. The firm provides municipal engineering, construction engineering, transportation engineering, land development engineering, pavement management, land surveying services, urban planning, and landscape architecture.
