### **Spalding DeDecker Welcomes Senior Survey Project Manager Doug Lansky, PS to the Team.**

Rochester Hills, MI (September 9, 2024) - Spalding DeDecker (SD), a leading civil engineering, planning, and surveying firm, hires Doug Lansky, PE as a Senior Survey Project Manager in the Grand Rapids office.

Mr. Lansky is a professional surveyor who brings more than 33 years of expertise to the survey team. Mr. Lansky's expertise includes remonumentation projects, ALTA/NSPS Land Title Surveys for industrial, residential, and commercial properties, and comprehensive boundary and condominium surveys across Michigan. Additionally, he has extensive experience in MDOT road design and construction surveys, providing precise project control and quality assurance.

Doug is skilled at collaborating with legal, engineering, and municipal teams, ensuring accuracy in land documentation and compliance with regulatory standards. His portfolio reflects a diverse range of projects, from urban infrastructure developments to natural recreational pathways. He holds his Bachelor of Science in Land Surveying from Michigan Technological University and is licensed in Michigan and Florida.

"We're excited to welcome Doug as our Senior Survey Project Manager in Grand Rapids, said Steve Benedettini, president of Spalding DeDecker. "His extensive local expertise and effective collaboration skills with various project teams will enhance our ability to deliver excellent survey services from our Grand Rapids' office, ensuring better support for our clients across West and Central Michigan."

### **About Spalding DeDecker**

Established in 1954 and celebrating its 70th year in business, Spalding DeDecker is an employee-owned consulting engineering, planning, and surveying firm specializing in infrastructure, land development, urban planning, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to plan, construct, and maintain their infrastructure. The firm provides municipal engineering, construction engineering, transportation engineering, land development engineering, pavement management, land surveying services, urban planning, and landscape architecture.
