Spalding DeDecker Welcomes Senior Project Manager Steve Stramsak, PE, PTOE to the Team.
Rochester Hills, MI (January 17, 2025) - Spalding DeDecker (SD), a leading civil engineering, planning, surveying, and landscape architecture firm hires Steve Stramsak, PE, PTOE as a Senior Project Manager.

Mr. Stramsak is a seasoned traffic engineering professional with over two decades of expertise in traffic design, traffic operations, and project management. Known for delivering complex projects on time, within budget, and to the highest standards, Steve specializes in traffic design, traffic operations, quality assurance, and business development.

Throughout his career, he has led the development and implementation of transportation management plans, reviewed and approved traffic control measures, and managed multimillion-dollar budgets for signal design and traffic operational improvements. His work has encompassed traffic design for construction projects, safety analyses, access management, and coordination of large-scale projects, including maintaining traffic for urban construction zones and special events. Steve excels in collaborating with diverse stakeholders, including municipal teams and private developers, to deliver innovative, practical solutions that improve traffic safety, mobility, and infrastructure efficiency.

He holds a Bachelor of Science in Civil Engineering from Lawrence Technological University and is licensed in Michigan and Minnesota. Additionally, Steve is a Professional Traffic Operations Engineer, an International member of the Institute of Transportation Engineers (ITE), and the current President of the ITE Michigan Section.

"We are thrilled to welcome Steve to our team, bringing his exceptional expertise in traffic engineering," said Steve Benedettini, president of Spalding DeDecker. "He is regarded as a leader in traffic engineering and this will boost our ability to provide innovative solutions to our clients and great mentorship to our team."

About Spalding DeDecker

Established in 1954 and celebrating its 71st year in business, Spalding DeDecker is an employee-owned consulting engineering, planning, and surveying firm specializing in infrastructure, land development, urban planning, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to plan, construct, and maintain their infrastructure. The firm provides municipal engineering, construction engineering, transportation engineering, land development engineering, pavement management, land surveying services, urban planning, and landscape architecture.
