Spalding DeDecker Welcomes Senior Project Manager Joshua Mailloux, PE to the Team.

Rochester Hills, MI (April 14, 2025) - Spalding DeDecker (SD), a leading civil engineering, planning, surveying, and landscape architecture firm hires Joshua Mailloux, PE as a Senior Project Manager.

Mr. Mailloux, PE, is a seasoned project manager with a decade of experience delivering complex, large-scale infrastructure projects across the Midwest. Known for his leadership on high-profile transportation initiatives, he brings a strong background in project management and construction engineering.

Mr. Mailloux has been actively involved in all aspects of infrastructure development, from contract administration and inspection to survey and construction oversight. He specializes in complex design build bridge replacements and modernization projects, often executed under tight timelines and accelerated schedules. His proven track record is built on a foundation of safety, quality, efficiency, and collaboration.

Mr. Mailloux holds a Bachelor of Applied Science from the University of Windsor and is a licensed Professional Engineer in Michigan.

"We are excited to welcome Josh to our team," said Steve Benedettini, president of Spalding DeDecker. "His expertise in managing large-scale, complex infrastructure projects enhances our ability to deliver impactful solutions to our clients while providing strong leadership to our team members."

About Spalding DeDecker

Established in 1954 and celebrating its 71st year in business, Spalding DeDecker is an employee-owned consulting engineering, planning, and surveying firm specializing in infrastructure, land development, urban planning, and surveying. Headquartered in Rochester Hills, Michigan, along with several regional offices, Spalding DeDecker offers a diverse set of skills to clients seeking solutions to plan, construct, and maintain their infrastructure. The firm provides municipal engineering, construction engineering, transportation engineering, land development engineering, pavement management, land surveying services, urban planning, and landscape architecture.
